## Parent and Child Resources

### STEM Ecosystems: STEM @ Home

The SLECoP is organizing a series of webinars for parents, educators, school administrators and anyone who have students in their care. These webinars are intended to help them with practical tips they can employ for how to keep their children engaged and learning with STEM at Home.

Click the Link below to access the Virtual Home Lab, Community Communications, online resources, or submitting resources you have found that you want to share!

## Collaboration Corner: Wegmans

Special thanks to our friends at Wegmans in Woodbridge, for providing delicious dinners for our families during our 9-week Financial Peace University program! We are grateful for their commitment to supporting the community.

## Census Corner

The Census is a short questionnaire that you can fill out online, on the phone, or via mail. It's done once every 10 years to count EVERYONE who lives in the US – that helps the government figure out how much financial aid to give to each state for important things like **education, safe roads, and health care**. It also makes sure we have the right number of representatives representing our state.

Plus, it's **totally confidential!** Your information is protected by law.

## What is the Census?

## How do I take the Census?

Join us on April 1<sup>st</sup> for our Census Day Trivia Time!  
Team up with your family to answer fun questions: the winning family will receive an E-gift card!  
To play, join our online program and answer the questions on your smartphone.

Not sure how? Sign up and we'll walk you through it!
